

Gold mining towns in Australia

1. Find an atlas map of Australia which shows **mineral resources**.
2. On the outline map of Australia (see next page)
 - Label neatly the names of the states in red.
 - Label the capital cities in blue (write in small, neat letters).
 - Label the towns where gold has been mined or is being mined in Australia today. (Mark the town with an orange dot and then carefully write the name of the town beside it.)

HINT: you may need to use more than one atlas.
