

Exploring and Mining for Buried Treasure

Like most human activities that use the land, mining affects the environment. Therefore, we must ensure that when we mine there is minimal impact on our plants, animals, waterways and air.

Your task is to create a flow chart which outlines how we explore and mine for buried treasure.

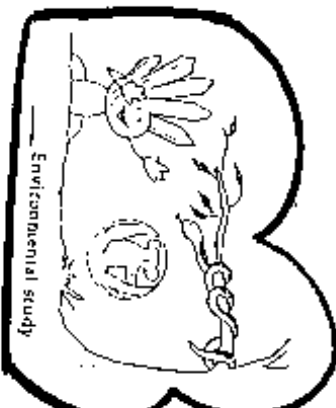

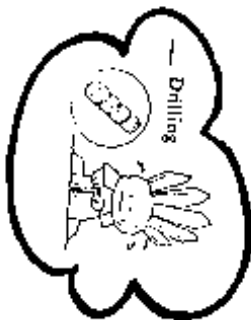

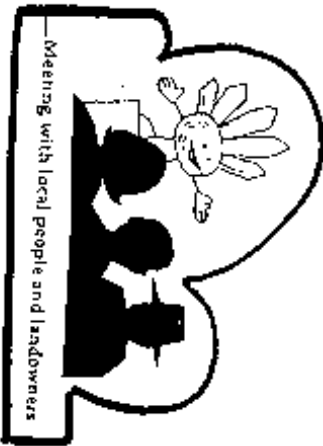

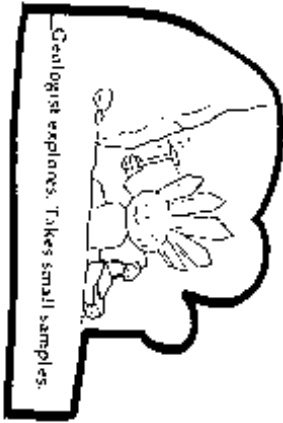

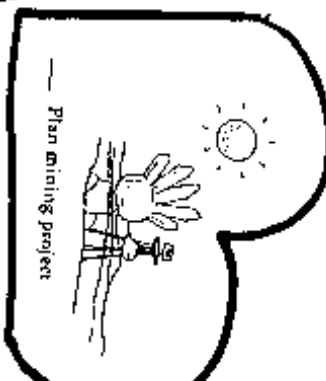

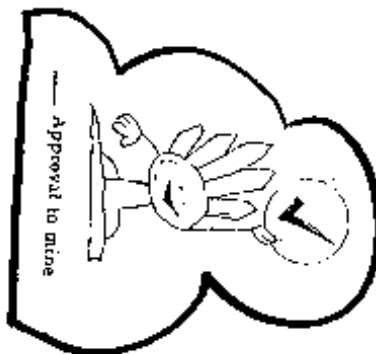

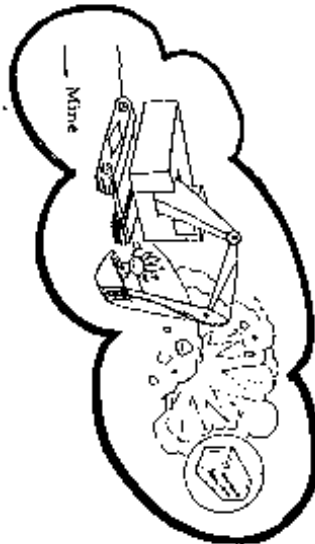

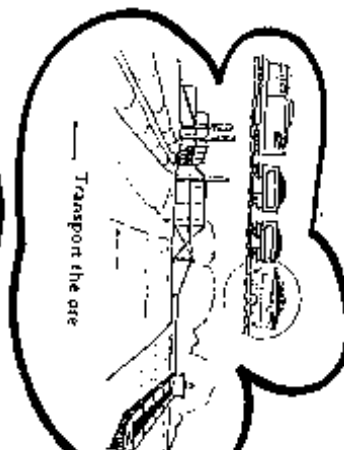

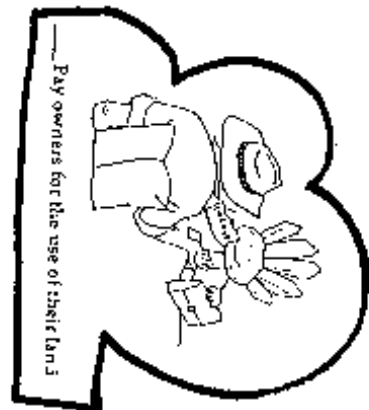

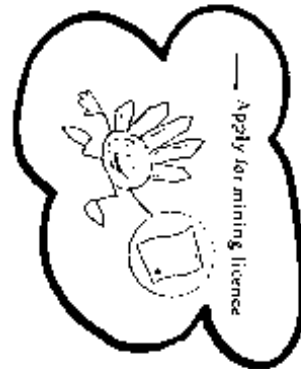

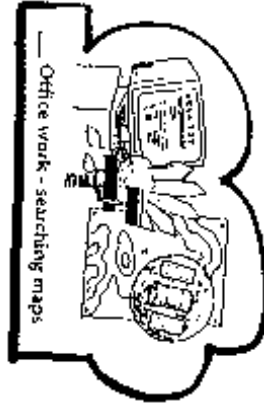

Step 1: Colour and then carefully cut out the pictures on sheet 1.

Step 2: Number each one in the correct order.

Step 3: Paste them on to sheet 2 to show how we explore and mine for buried treasure.

Exploring and Mining for Buried Treasure!

1. Colour and cut out the pictures.
2. Number each one in the correct order and then paste them to show how we explore and mine for buried treasures?
